

BIO ENERGIZER[®]**TESTIMONIAL**

Location: McCormick Distillery MO.

3/23/2010

Dear Diana,

We began using Probiotic Solutions Bio Energizer in our wastewater treatment system in April of 2001 in an effort to remove sludge and to control odor. Within eight months, the sludge blanket was reduced by a half-foot, and my phone didn't ring once for odor complaints! After the initial sludge removal, we were able to reduce the amount of Bio Energizer down to a maintenance dosage, and the depth of our sludge blanket is holding constant at just over a foot. The product worked as advertised, and has served as an economical and eco-friendly avenue to help our lagoon achieve optimal treatment performance. We also can't say enough about the dedication to customer service that the Probiotic Solutions Bio Energizer representative has displayed. The rep has followed through to ensure that the product is being utilized correctly to ensure our satisfaction! Thanks to Dave Axton and the rest of the Probiotic Solutions Bio Energizer team!

Kind Regards

QC Supervisor

Probiotic Solutions® Product Information

BIO ENERGIZER® is a broad-spectrum bio-activator containing over 30 essential microbial growth-promoting ingredients. By design, BIO ENERGIZER® is a balanced formulation of vitamins, trace nutrients, enzymes, organic acids, and biostimulants that motivate the existing microbial community to greater metabolic capacity and efficiency. BIO ENERGIZER® is not a bacterium nor an inoculum.

For many years, wastewater operators have continued to use BIO ENERGIZER® to cut their sludge hauling costs.

Operators Using BIO ENERGIZER® Report:

- 1) Increases in BOD removal efficiency.** BIO ENERGIZER® improves treatment plant removal efficiency to increase plant treatment capacity and more easily meet effluent requirements.
- 2) The elimination of expensive dredging costs.** BIO ENERGIZER® converts sludge into gases and water, reducing sludge accumulations. No draining, drying, excavating, or inconvenient down time.
- 3) The reduction of odors and aeration costs.** BIO ENERGIZER® enhances aerobic and facultative biological eco-systems to reduce the production of objectionable and offensive odors. BIO ENERGIZER® also increases the dissolved oxygen levels which decreases the need for aeration.

BIO ENERGIZER® enhances endogenous respiration for faster and more complete oxidation of sludge into carbon dioxide and water.

**Our Probiotic Solutions® Products
are Highly Efficient and Effective Due
