

NUTRIPLEX®

What is NUTRIPLEX®?

NUTRIPLEX® is a scientific formulation of nutrients based in and delivered by Micro Carbon Technology®.

What does NUTRIPLEX® do?

NUTRIPLEX® is a multi-nutrient product that provides energy to support existing microbes in any nutrient-deficient environment. Helps increase the biological activity for bioremediation and/or degradation of chemicals, petroleum, and organic compounds. Increases the proliferation of microbes in soil and water for increased bio-oxidation capacity. Is compatible with other probiotic products for ease of mixing and application. Is non-toxic, concentrated, and easy to use.

DIRECTIONS FOR USE

- Shake well before use.
- Designed to be applied in water and/or soil applications.
- Best results will be obtained when product is evenly distributed across the water or soil surface.
- Apply NUTRIPLEX® as a spray with sufficient water to ensure uniform coverage.
- For maximum results, apply diluted product via spray application.
- Add NUTRIPLEX® at same rate as MICATROL® and BIO ENERGIZER®.
- Application timing, intervals, and rates may vary according to individual situation, degree of contamination, existing available nutrient levels in the soil or water column, and overall condition of the site.
- Applications can be made as often as every 7 to 10 days as needed.

This product is intended as a nutrient source for microbial ecosystems in soil or water.

STORAGE AND DISPOSAL:

Do not store this product below 50°F (10°C) or above 90°F (30°C). Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.
